WATER *Scares*

WHERE *Art* MEETS NATURE.

C.E. Pontz Sons has been working with nature since 1934. Our name has become synonymous with first class design, service, and workmanship. If you are entertaining the idea of a water feature, and you have a taste for the finer things, your search has ended. Our residential water feature team has designed and built hundreds of water features. It's the details that separate us from the competition. We start by designing a feature that fits well into the environment provided. We use rocks that are harvested naturally by a company committed to preserving nature. All of the components used are top of the line to provide years of enjoyment. Our filtration system is simple, operates chemical free, and uses natural plant life, bacteria, and aquatic life to balance the new ecosystem. C.E. Pontz Sons will deliver a product that is both natural in appearance and function. We'd be happy to show you some of our work in person and connect you with existing customers to assist in your project. The value in a C.E. Pontz water feature is realized over years of happiness. Please contact us to learn more about a water feature for you!

C.E. Pontz Sons is the only Certified Aquascape Contractor in Lancaster County. Our technicians are re-certified annually and train with the best and most recognized water feature installers in the industry. We were invited to, and participated in, the largest man made water feature "build" in the country located in Chicago, Illinois.

INCLUDED WITH EVERY PROJECT:

- Top quality Aquascape pond products
- Mulched edge treatment
- Native PA boulders with moss and lichens
- Driftwood for natural effects (upon request)
- Two free maintenance consultations scheduled at your request
- Guarantee on parts and labor
- Second to none attention to detail regardless of project scale
- CERTIFIED installers and technicians
- Personal one-on-one pond tour to assist in your decision making

LIGHTING FOR YOUR WATER FEATURE

C.E. Pontz Sons now exclusively installs LED lights that significantly reduce electric consumption, last longer, and are not prone to problems associated with traditional outdoor water lights.

RAINWATER HARVESTING

New for 2009! C.E. Pontz Sons has been certified in rainwater harvesting systems. These systems further us in our goal of ecological sustainability. Contact us for more information.

WHY PONTZ FOR YOUR WATER FEATURE

Using **Aquascape products** is a great start to your water feature. C.E. Pontz Sons delivers unmatched quality to all aspects of your project. From the stone used, to the design itself, your experience with us will be an investment that provides a peaceful return for years to come.

*Certified to install the worlds best.
