“We can rebuild him;  
we have *the* technology.”

**THOSE INSPIRATIONAL WORDS** from an iconic '70s TV show inspired a Stanford engineer to develop the super-strong joint system for wood chairs that became the basis for our BionicWood™ joint, available in all Cooltree wood seating products. This combination of steel, wood and space-age polymers allows us to warranty our BionicWood™-jointed chairs for 20 years!

**COOLTREE OFFERS A FULL LINE OF SEATING FOR SENIOR LIVING.** High-quality features and options bring comfort and durability to your resident rooms, common areas, dining rooms and more. See the complete line on our website: **cooltree.com**.

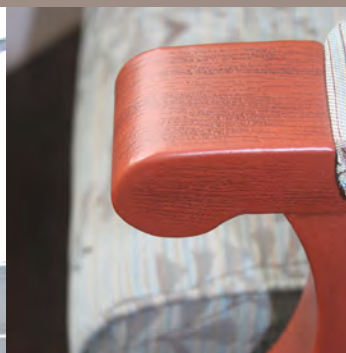

*“Our seating pieces, like our case goods products, are built to order. If you have an option or a feature in mind, tell us about it. Chances are, if you need it, others will too. Cooltree is a customer-centered company. We keep our operations lean so we can focus on the customers’ needs. Contact us through email, Facebook, Twitter or by phone; we want to hear from you.”*

— President, Michael Calimeri

# Wood SEATING

The demands on seating products in the healthcare environment are more than wood can deliver. And yet you still want the look of wood. You won't find another non-wood product with the look and feel of wood that Cooltree seating has.

Like all seating products, you need choices. We offer many different wood colors and fabric options. Fabric options include a Krypton coating that repels moisture and makes cleaning and disinfection control easy.

- Available in any wood finish
- Frame load capacity over 2000 lbs
- Bariatric models available
- Lifetime structural guarantee
- Made in USA

# All the Right Notes *in* Furniture Design.

**WHEN YOU THINK OF JAZZ**, you think of a fusion of style and music. In a similar way, Cooltree case goods fuse style with modern healthcare needs. Crafting furniture that is stylish and yet works for residents in healthcare facilities isn't a design challenge. You need appealing styles with healthcare sensibility. Cooltree delivers with traditional on-the-floor units and our unique and patented "Off the Floor™" designs.

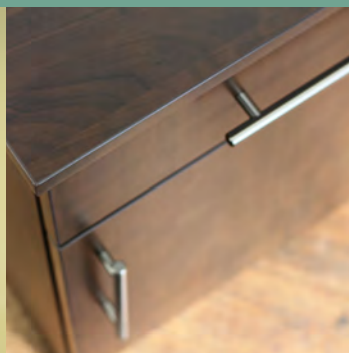

**COOLTREE OFFERS TEN STANDARD STYLE SELECTIONS** to fit all of your resident room design needs. Choose your design and Cooltree can match head and footboards with your current beds or with Cooltree's own bed selection. See our complete line at website at **[designbycooltree.com](http://designbycooltree.com)**

*"We have been making furniture for the past 47 years. Cooltree is our newest division, focusing exclusively on healthcare. We can design and build any style and type you can imagine. We offer the latest innovations at affordable pricing. You can combine our beds with matching case goods and seating to complete any design criteria. Contact us through email, Facebook, or Twitter or by phone; we want to hear from you."*

— President Michael Calimeri

**Cooltree** provides the perfect case goods for assisted living, long-term care, post-acute care, and acute care facilities. We fuse high-pressure laminates with melamine surfaces, wood and PVC trim to bring you style and practicality.

Looking for increased life span, better accessibility as well as facility cost reduction features? Your local Cooltree representative will be happy to explain all of the features and benefits of our Off The Floor™ collections.

*\*minimum quantities may apply*

- Available in a wide selection of wood colors
- Many choices of hardware
- Sealed backs for improved disinfection control
- Custom sizes with no additional charges\*
- 10-year limited warranty

## A Symphony *of* Features in Classic Beds.

**CLASSICAL MUSIC BRINGS TO MIND A SYMPHONY**, with a wide range of musicians and instruments delivering a flawless performance. A healthcare facility should run like a symphony, and Cooltree beds are the finest instruments available.

Cooltree beds have the features and price ranges to deliver the perfect performance. The selection includes width and length extensions, wall saving bumpers, side assist rails, tool-free maintenance on most replaceable parts, custom head and foot boards, staff controls, and bariatric models. All these features at the most competitive prices. That's music to the ears!

*“Our beds are built with the highest design standards.  
We guarantee we can match the price of any competitor  
in the same class and surpass their quality in design.  
Compare a Cooltree bed on your next bed purchase.”*

— President, Michael Calimeri

*Pictured is the Bonn CTB-301*

The **Bonn CTB-301** and the **Salzburg CTB-601** share the same frame which includes width adjustment to 42 inches. Both are suitable for assisted living and long-term care use. They come standard with wall bumpers, roll at any height convenience and 450 lb. weight capacity. The Salzburg has the added capability of a one step floor lock and options that include battery back-up and a footboard staff control with a resident lock-out feature.

*Pictured is the Vienna CTB-901*

The **Vienna CTB-901** is the best choice for long-term care and post acute environments. The slate deck and tubular steel design are superior to any bed in this class. It features a five-function motor system that allows for Trendelenburg, reverse Trendelenburg and cardiac chair positioning. Its length expands from 76 to 80 or even 84 inches. When you want a bed that can meet every need, Vienna is the best choice.

*Pictured is the Bach CTB-1000*

Bariatric care brings special challenges. Cooltree offers the **Hamburg CTB -750** and the **Bach CTB-1000**. If your facility has been renting bariatric beds, it may be time to consider purchasing these affordable solutions. You'll find them far more attractive than typical rental units. Available with 750 lb. and 1,000 lb. capacity, they offer all the options you're looking for including trapeze bars, digital scales, and bariatric mattresses - all at a great price!
